

UID SUMMIT

UID. IT'S COMING. BE READY.

2 - 3 DECEMBER 2009
Hilton Amsterdam

UID. IT'S COMING.

Executives in the aerospace and defence sector looking to stay a step ahead of the competition will benefit from attending the UID Summit to learn about NATO's Unique Identification (UID) Standards and how UID is building momentum in Europe.

UID. BE READY.

The Netherlands published a **mandatory UID clause** in March 2009 which **requires UID on contracts**. Other European nations are close behind.

The U.S. Army and Navy require UID on **over 90% of their supplier contracts**.

If you represent aerospace & defence suppliers in Europe and have not been impacted by UID, you soon will be. **Are you ready for UID?**

UID SUMMIT. BE THERE.

The **UID Summit** is the **ONLY** opportunity for **European defence officials and defence industry suppliers** to meet, learn more about and discuss UID (registries, AIT devices and more) as included in STANAG 2290 and US DoD Mil-STD-130N.

Forward thinking leaders will not want to miss this event!
